

**ONE WAY
ENVIRONMENTAL POLICY
VERSION: OCTOBER 2023**

oneway
BUILDING YOUR FUTURE

Environmental Policy

Our Policy is to identify all significant environmental impacts from our work activities, products, with the aim of minimising these impacts for the lifecycle, taking into consideration the nature and scale of the organisation. This includes the disposal of equipment and other physical assets under our control.

The Policy shall be communicated to our workforce to ensure it is understood and made available to interested parties upon request.

The Managing Director has overall responsibility for the formulation development and implementation of the Policy. Our top management are committed towards the success of the Policy.

One Way are committed to minimising our environmental impacts, and towards the protection of the environment, including the prevention of pollution.

One Way shall comply with our legal obligations and other requirements, including The Environmental Protection Act 1990 and its associated underpinning regulations, and those requirements set by our clients and industry partners.

One Way shall provide sufficient resources for environmental management, and for setting and monitoring our environmental objectives. One Way are committed towards continual improvement of the management system and our environmental performance.

One Way are committed to operating our Company and maintaining the management system conforming within the spirit of the International Standard ISO14001:2015.

This policy will be monitored and reviewed annually.

Upon request, our Policy shall be made available to Stakeholders.

Signed:
Paul Payne, Managing Director
